DETAILED ACTION

This office action is in response to applicant's amendment dated June 1, 2007, wherein claims 1-8, 12, 13, 17-20, and 23-28 are cancelled and claims 9-11, 14-16, 21 and 22 are amended. Claims 9-11, 14-16, 21 and 22 are examined on the merits herein.

The specification has been amended to denote trademarks in all capital letters.

The objection to claims 17 and 18 based on a misspelling has been rendered moot because those claims are cancelled.

The rejections of claims 1-8, 12, 13, 17-20 and 24-28 under 35 U.S.C. 103(a), and the rejection of claims 4 and 6 on the ground of nonstatutory obviousness-type double patenting are rendered moot because these claims have been cancelled. These rejections are withdrawn.

Claims 9-11 and 14-16 have been rewritten in independent form and such that the structures of the starting material and products are clearly different. Therefore the rejection under 35 U.S.C. 112, second paragraph, is withdrawn.

Reasons for Allowance

Claims 9-11, 14-16, 21 and 22 are currently pending and are examined on the merits herein.

The claimed methods preparation of asparagine-linked monosialooligosaccharide derivatives and the asparagine-linked oligosaccharide derivatives containing fluorine are

adequately described in the specification in such a way as to enable one skilled in the art to practice the invention. Examples 1-7a, pages 60-72 of the specification, describe the methods of claims 9-11. Examples 8-49, pages 72-89 of the specification, describe the methods of claims 14-16 and the products of claims 21 and 22.

The claimed methods and products are not taught or fairly suggested by the prior art. Although fluorinated sialic acids and hydrolysis of sugar chains are known in the art, there is no teaching or suggestion to prepare the particular compounds which have been claimed. Thus the prior art does not anticipate or render obvious the claimed invention.

In view of the information discussed above, the indicated subject matter is allowable over the prior art.

Accordingly, Applicant's amendment dated May 1, 2007 is sufficient to remove all rejections made in the prior office action as discussed above and to place the application in condition for allowance.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled, "Comments on Statement of Reasons for Allowance."
